

Loyola University Maryland

***Fact Book Supplement
Fall 2012***

***Office of Institutional Research
Maryland Hall***

PREFACE

The Office of Institutional Research began publishing a Fact Book Supplement in 2011 that includes graduate student headcount, enrollment and credit hour information for those special programs that are either summer-only or on a significantly different academic calendar which causes them to not be fully captured in the University's official fall census. We have added data on retention and time to degree for full-time, cohort-based programs for Montessori education to the supplement this year. Like the Loyola University Fact Book, this publication is being made available to the campus in electronic form only. The document can be accessed by faculty, staff, and students as a PDF on the Institutional Research section of the University's Web site at <http://www.loyola.edu/IR>.

Suggestions, as well as general comments and questions regarding this supplement, are always welcome.

Chinara Brown, Program Assistant

Nicole Simone, Research Associate

Shannon Tinney Lichtinger, Associate Director and Coordinator of First-Year Research & Retention Studies

Sources: Montessori summer headcount census files and degree files, Office of Institutional Research

Notes: Data collection for Montessori multi-summer programs did not begin until summer 2008.

Bolded "ENR" figures represent the total number of individuals who began the program in that cohort that semester. Naturally, "ret/grad" percentages would not apply in this instance.

¹ The number and percent graduated represents the total number of students from that cohort who graduated with a degree from that program as of spring 2012.

² These data represent how long it took for students to attain their degree. This represents the percentage of students who graduated within the stated time frame.

³ WMI stands for Washington Montessori Institute. The M.Ed. in Montessori Education is offered in a full-time multi-summer format (over three or four consecutive summers).
